

Subjective reality same "Universe"  
different "Seed" to start train

That Universe Against "Reality"

Universe is  $[(0-1)] \rightarrow$  present  
Subjective <sup>ivity</sup> is  $\boxed{MM}$  <sup>what did do?</sup>  
Input set  $\rightarrow$  function of changing  $\rightarrow$  memory  $\square$   
Output set  $\leftarrow$  Input set, slightly?  $\rightarrow$  change what doing?  
training set Agency why?

Compare against expectations

train

Gradient descent  
Subjective  $\rightarrow$  Universe

our universe is one of many "Bubbles."
