

in the desert. <sup>sting</sup> natural

lenses <sup>pull</sup> from lightning strikes

can <sup>to</sup> create cool little tubes

tubes <sup>machines</sup> create "glass" glass

is <sup>ank</sup> always "bleeding", moving,

ferro fluid as sand soaks up

"wine" magnetizes, clumps, rinse

repeat every day, builds itself  
with zero help

when

rains

Gets

crazy

300ft  
Spiky

"cell"?

Catch  
beasts of  
light  
and  
dark

Boxed & it  
Capt for  
when dry  
tappy top

Cover it  
with  
dirt  
till it  
goes  
away.

even  
I'd  
prolly  
worship  
you...
