

should be able to put

"dust into the glass"

When making the one ^{or} solids

what
signs
ments

I do & Prince
Rupert
plays a role
with hands? measurement/sensor?
flagellum? antenna?
These neurons?
intramembranous
stressors do crazy stuff?

Glass "Bugs" The
for making piles of
stuff not
just

pieces are
control?

f(?) Programmable? function pickle with
Hieroglyphs? west pieces built "water" never glass
compound function? Built entire robot in box
city in sand new media for 3.4 tools. OMG

Zetas... matter
programming...
cognitivus

city in my town
and my A [drat] tools
Glass, recyclable,
water,
liquids,
